**Saint Blaise  
Feast Day– February 3rd**

Saint Blaise was the bishop of Sebastea and a doctor. The first known record of the saint's life comes from the medical writings of Aëtius Amidenus, where he is recorded as helping with patients suffering from objects stuck in their throat. Many of the miraculous aspects of St. Blaise's life are written 400 years after his martyrdom in the "Acts of St. Blaise." Saint Blaise is believed to have began as a healer then, eventually, became a "physician of souls." He then retired to a cave, where he remained in prayer. People often turned to Saint Blaise for healing miracles.
